We, **CREVEN**, are pleased to contact you and would like to introduce our company shortly to you.

New Dynamic Solution of Seatpost

To commercialize the patent for bicycle **saddle angle control device** for relieving saddle pain in bicycle riders, **CREVEN** submitted the first round of training to the EUROBIKE exhibition in **Germany/Bicycle exhibition** and received favorable responses from many customers.

We feel that you may be interested in our **product**, and thus would like to briefly introduce them as follows:

Sangle-fit

Automatically adjust your saddle angle while riding. It's patented with a device that can adjust the bike's saddle angle to **-15 degrees**. It can be used on all different kinds of terrain. As the riding condition of the bicycle is enhanced by Sangle-fit, elderly riders can cycle **for longer**, both in terms of distance and time duration.

sangle-fit

Product Features

SPEC

POST : Aluminium

Pivots : Engineering plastic aluminium

Travel : 15 degree downward

Length : 380mm (27.2 xl)

Weight : 550g ± 10g (27.2 xl)

Max rider weight : 140kg / 308lb

-Applied for a patent in the United States/ Germany / Japan / Taiwan

-Sangle-Fit trademark applies to the United States / Taiwan
