★★★★★

This is the serum I love as a LIFE Serum.  
In the past, I would relieve dryness by frequently spraying mist, but now I just apply it once in the morning and feel comfortable all day long. ~

★★★★★

This is the serum that the director of the skin care center always applied to finishing at the end of her treatment.  
Now, I am using it as an essential item that I must use after washing my face at home. ~

★★★★★

My skin was so dry that I used a lot of oil skin care cosmetics.  
To be honest, when I apply oil skin care, I don't get so oily and my hair gets stuck that it was hard to sleep on my side when I sleep, but this serum doesn't do that at all!!!  
I recommend it!!!
