

HERA POINT

ElimTek Spot HIFU System

Tightening Cartridge
(4Mhz, Pink)

Lifting Cartridge
(7Mhz, Gold)

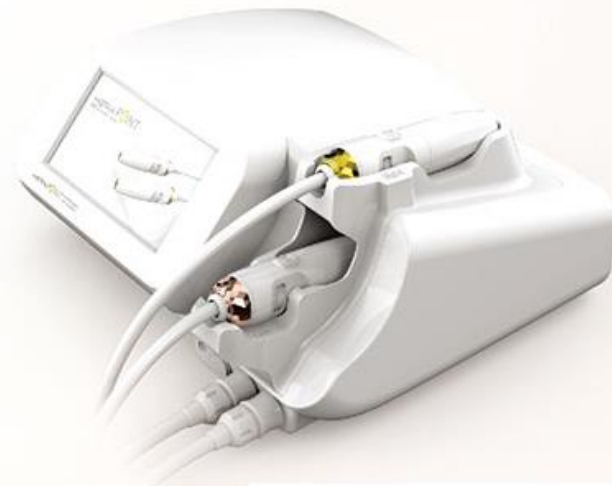

Effects and Efficacy

- Maximizing skin lifting effect using HIFU (High Intensity Focused Ultrasound) function
- Minimize side effects through natural principles and non-surgical methods
- Effective in fine wrinkle management by promoting collagen formation in the skin
- Customized treatment according to the user's skin by setting the ultrasound irradiation length and stage

- 1) Treatment with desired cartridge is possible according to skin lifting and tightening effect
- 2) Since the tip of the cartridge is circular, smooth treatment is possible for curved skin
- 3) Ultrasound irradiation depth can be set for each cartridge

Divided into 2 cartridges according to the function you want to use
 -> Lifting cartridge (7Mhz) and Tightening(4Mhz) cartridge
 The focal length of the cartridge can be adjusted through the dial

Item	Contents	
Electrical Rating	100~240vac, 50/60Hz	
Main Body	Size	380mm(W) × 334mm(L) × 173mm(H)
	Weight	5kg
Cartridge	Division	Lifting Cartridge Tightening Cartridge
	Frequency	7Mhz 4Mhz
	Depth	1.5, 2, 3, 4.5(mm) 3, 4.5, 6, 9(mm)
	Shot Count	150,000 shot
