I ACB (Air Circuit Breaker)

ACB with new IEC and KS standards

VITZRO EM Air Circuit Breaker is a **premium circuit breaker** with an excellent performance shown through user convenience, featuring a **short breaking time and maximum safety and protection functions.**

- **Easy maintenance** : Allows for the convenient maintenance of the machine's modularized mechanisms and accessories with systematically coupled parts.
- **Compact size** : Optimized for the package panel system.
- **Smaller exterior** : Enables 3-stage loading of low-voltage panels.
- **LED display** : Identifies the trip status for user convenience.
- **Overheat protection** : Equipped with features to prevent overheating

Item	Specification
Rated Current	630~4000A
Breaking Capacity	50~85kA
Operation Method	Motor operation, Manual operation
Voltage	AC690V
Installing Method	Draw-out Type, Fixed Type
Trip Method	Multifunction Release, Under-voltage Release, Shunt Release
Number of Poles	3P, 4P
Standard	IEC60947-2, KS C 4620

Product Info	
Name	Air Circuit Breaker
Type	Low Voltage Equipment
Weight	60kg ~ 100kg
MOQ	1 EA
Payment	T/T, L/C

I Company Introduction

Company Name : VITZRO EM Co.,Ltd

Founded in 1955, VITZRO EM Co., Ltd has been leading the electric equipment market for over 65 years. We are developing advanced technology to bring more satisfaction and benefits for everyone.

Based on progressive knowledge and technology in the heavy electric equipment, electric power equipment, and aerospace fields, VITZRO EM creates sets a new standard that will change the future.
