The key is 100% good ingredients!

A toner wipe made by a medical skin care company with big difference

“Special recipes determine quality”

Even if the ingredients are similar, the quality changes if the recipe containing the know-how is different.

“Professional peeling solution that has been prescribed in hospitals for many years”

This peeling toner has been prescribed by hospitals for troubled skin for many years and contains the expert's know-how for breathing skin.

“Naturally derived good ingredients that only care about your skin”

With the intention of creating healthy and clean skin, we removed harmful ingredients and prescribed natural and good ingredients.

“Good ingredients GREEN 1~2 GRADE natural ingredients”

With the belief in 100% customer satisfaction and creating safe and healthy professional products, we prescribe mild and good ingredients rated GREEN 1-2 so the whole family can use them with confidence.

How to use

Cleansing Finish

After washing your face, moisten a cotton pad with 3 in 1 Hydro Exfoliator and gently wipe it along the skin texture.

Absorption of Active Ingredients

Gently pat the toner remaining on the skin with the palm of your hand to allow it to be absorbed gently.

Glowing Skin

Smooth skin texture and bright skin tone for clear, glowing skin

It removes dead skin cells and impurities and recharges vitamin energy, making dull skin bright and moist.

Excess Sebum

#Highly recommended for these people

It is absolutely necessary for those who have these concerns

1. Those who want to moistly remove dead skin cells every day without burdening the skin
2. Those who have difficulty applying makeup due to dead skin cells accumulated on the skin
3. Those who are concerned about skin waste remaining after cleansing
4. Those looking for a toner with a moisturizing feeling without leaving a tight feeling.
5. Those who want to keep their dull skin tone clear and bright
6. Those who frequently have trouble with excessive sebum
