## I ADAMO vehicle/table photocatalytic Air Purifier

### Always, Anywhere, with ADAMO

This product has a sterilizing function as well as dust collection which is a pure function of an air purifier. It is equipped with a photocatalyst filter that can be used semipermanently by self-cleaning and is excellent in decomposing harmful bacteria and organic compounds, especially for removing odors. It can be used for both vehicle and desktop use. We have domestic electrical safety certifications and patents.

- Features**
- Photocatalytic Filter
  - Purification, Sterilization
  - Resolving New house Syndrome
  - Deodorization excellence
  - Vehicle sand
  - Fan low-noise
  - Cheap electricity bill
  - Compact design, Easy installation

Adamo using a plate-shaped photocatalyst filter has the effect of sterilizing and decomposing heavy metals and various bacteria and viruses contained in contaminated air and environmental pollutants(VOCs: formaldehyde, ammonia, etc.) and fine dust. It is also effective in preventing contamination by decomposing and destroying malodorous substances, dioxins, and sulfides.

All odors and harmful organic compounds present in the care are completely removed.

ADAMO air purifier is a clan care filter which is FREE, HEPA, Deodorization, LTC.

It eliminates the smell of tobacco, sweat, food, etc.

By passing air into the Photocatalyst one more time.

Product Information	
Model	ACT-030BW/CB/IW/PW
Size	90*105*95mm
Noise	22dB
Weight	0.5kg
Area	9.9m <sup>2</sup>
Installation	Holding, Moving

## I Company Introduction

### Company Name : ACE ONE CO., LTD.

ACE ONE is located in Korea and have our own brand, Adamo Air Cleaner. The growing trend of the overseas air purifier market, which has increased consumer interest in indoor air quality, is expected to continue and show a bullish trend, and the sales maximization effect during export is expected.
