

# 产品简介

Production Profile

PTFE sliding sheet is a traditional sliding material for bridges. Our company uses high-quality domestic materials and elaborately produces products with better performance than EN1337-2. Our products are used in many domestic bridge construction projects and are highly praised by many users.

The product size:

ITEM	DIA/LENGTH	WIDTH	THICK
PTFE SLIDING SHEET	40-1500mm	≤1500mm	3.5-7mm

# 实验室 简介

Testing room

Friction loss testing machine

Plastic tensile testing machine

Plastic hardness machine

Densitometer
