## I Zetta Magic Cleaner Trigger

### Wash your Hands with joy

Zetta Magic Cleaner is an aerosol-type bathroom cleaning product that makes the bathroom more hygienic and refreshing with its effective cleaning effect strengthened by a powerful formula. Zetta Magic Cleaner is mainly used in Bathroom cleaning (removal of bacteria, stains etc.), including sink, mirror, wall, and toilet. Please shake thoroughly before using. Hold the product upright and spray about 30 cm away from the area to be cleaned. Allow about 10 min for the blue bubble to react sufficiently with the contamination. (Please wait until the bubbles turn white.) Rinse the foam with water. Scrubbing or a cleaning brush is more effective if the contamination is severe.

#### Product Feature

Contains unique active foam formula with powerful cling technology that works upon contact to penetrate and dissolve soap scum, hard water, calcium, lime, and other bathroom stains: makes bathroom cleaning a breeze.

Foam spray covers a larger area for easier, faster cleaning: it expands into nooks, crannies, and other hard-to-reach spots for more effective cleaning.

Blue foam turns white as it cleans: just rinse with water, no hard scrubbing required (depending on dirt and surface condition)

Ideal for cleaning tubs, tiles, sinks, showers, veranda, and glass as well as any surfaces made of ceramic, chrome, or stainless steel surfaces.

Kill 99.9% of harmful bacteria and mold

Prevents growth of mold and mildew

Deodorizes and leaves a pleasant fresh scent behind

#### Instructions

Turn spray nozzle to 'ON' position.

Hold the appliance upright and spray it on the area you want to clean.

Please allow about 10 minutes for blue bubbles to react sufficiently to contamination. (Please wait until the bubble turns white.)

Rinse the bubbles with water.

If the contamination is severe, scrub it with a sponge or a cleaning brush.
