## I Intelec (Smart Evacuation Instructions)

### Guaranteed evacuation route made by AIoT tech

Intelec is a total solution system that applies AIoT and wireless communication technology. LED Arrows and voice instructions direct **safe evacuation directions** and behavioral tips, and AI **automatically** generates safe evacuation routes. Then, the ISED directs escape routes with LED arrows and voice guidance.

- **Supports continuous monitoring** : Has a constant flashing state on induction lamps, showing remaining battery capacity, etc.
- **24/7 maintenance** : Downsizes workforce and resource expenses
- **Independent power supply** : Is unaffected by a poor power supply.

Product Info	
Size	Small: 480 x 200 (mm) Medium: 690 x 270 (mm) Large: 840 x 320 (mm)
MOQ	100 EA

## I Company Introduction

### Company Name : Corners Co., Ltd.

Corners provides digital transformation powered by IoT and a digital twin. We provide the Smart Safety Agent, which allows for the evacuation of a large volume of people immediately upon emergency through application to various spaces, such as buildings and factories. Our Digital Twin extends the experience of operators by providing a comprehensive connection between the physical and digital worlds.
