HOW TO USE

1 Remove the oil and moisture on the nails

2 Pick the ones that are the size of your nails

3 Stick well the nail stickers on your nails

4 Cut the left over parts

TIP For longer lasting and higher adhesion,

- In the cold weather, heat the gel nails gently with a hairdryer before attaching them.
- After completely attaching the gel nails, dry them slightly with a hairdryer.
- If the gel nails protrude beyond the tip of the nails, the gel nails may come off.
- After attaching the gel nails, keep away from water, hand cream, oil, etc. for the next 1 to 2 hours.

FAQ

Q Do I need a UV lamp to cure it?

- A You do not need a UV lamp as SUNNY RECIPE is the fully cured gel nail sticker. Unlike semi-cured nail stickers, fully cured nail stickers are simple to use and minimize nail damage.

Q How to use it?

- A Please use it according to the instructions above. Before use it, remove the oil and moisture on your nails and attach the gel nails to the nail completely. We recommend that you use the gel nails slightly smaller than your actual nail size. When trimming the gel nails with a nail file, make sure that the gel nails do not stick out of your nails. When attaching gel nails, press firmly on the tip and both sides of the nails to attach it completely.

Q How long do the gel nails last?

- A When used according to the instructions above, on average, it is used for 1 week to 2 weeks, or even more than 2 weeks. However, it is not recommended to use any nail products for more than 2 weeks continuously for nail health.

Q Does the color return when you come back indoors?

- A Yes. As you come back indoors, the color returns to its original color within a couple of minutes.

Q Is it safe to use?

- A SUNNY RECIPE has been proven to be safe through the SGS safety and solvent-free test.

1 SGS safety test has been done

2 2022 Seoul Award for 'Idea Product'

3 Manufacturer's patents for color change technology
