I Perfection Breast Massage Pack

For mom's comfortable breastfeeding

You can make your own cooling and heating pack by using microwave, boiling, fridge or freezer. The soft material of the massage pack makes you feel velvety warm and cozy with the effect of red clay and jade. It features soft cushy material that can give a good breast fitting when you put it on your breast. It helps effectively relieve mastitis, breastfeeding pain and assist a lactation to increase both the quantity and quality of the breast milk your body makes.

How to Use

Cold Massage

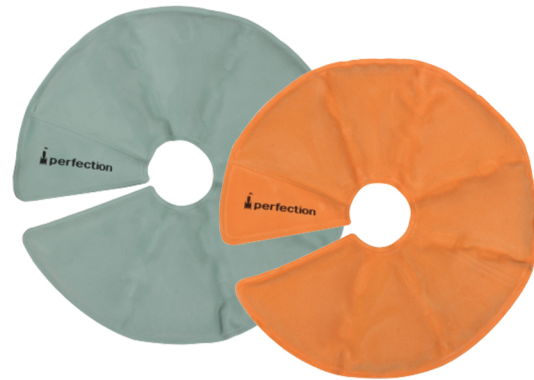

1. Place in refrigerator/freezer for 20 to 30 minutes
2. Don't use it when it's frozen and use in softened condition

Hot Massage

1. Heat massage pack to microwave within 40 seconds, or Heat in boiling water for 2 minutes.
2. Preferably don't place the massage bag on top of your chest directly, use the patch in between.
3. Pay attention to burn and check the temperature.
4. Do not reheat heat without cooling

Cleaning Method

1. Wash it with warm water/bottle detergent
2. Keep it dry
