

## SMD Parts Counter

Mega SMD parts counter is the most efficient parts counter for SMD components. This machine is a manual SMD parts counter. It is easy to operate for every one with 6 operating keys. Mega works from right to left direction that makes the user able to see the front of parts.

In addition, there are many user-friendly functions such as beeping sound, auto sleep mode, supporting dot printer functions.

We pursue "Error rate by 0%" and offer best quality.

The counter is able to count 0201, 1005, 8mm~72mm SMD components.

It has been designed both desk-top and moving path purpose.

100~220V 50/60Hz free voltage system makes this machine easier to use in every country without voltage transformer.

### FEATURES

- Economic SMD Counter
- Manual Type
- 0201, 8mm~72mm SMD tape Count
- 1ea x RS-232C Port
- Label (Dot) Printer
- 16bit Micro Controlled
- Easy operating. 6 Multi Function keys
- AC 100~220V (50/60Hz)
- Weight : 5.0 kg
- Dimension : 800 x 240 x 130

Mega	●			
Other model	●	●	●	●

### ● Balance Table NamA vs Competitor

No	Function	I'Magic	Giga S	Other Company	Remark
1	Motorized type	DC Stepping Motor		AC Motor	AC Motor needs to be replaced periodically
2	Motor power	DC 12V (input AC free voltage)		AC 100V or 200V	
3	Pocket check defect	●		●	
4	Adjust height	8,12,16,24~48mm step knob and delicately adjust possibility		8mm	
5	SMD, Axial, Radial Count	● / Future model		X	
6	Printer type	Barcode or Dot Printer		Barcode	Self edit company name from customer
7	Barcode scanner	●		●	No need power
8	Last counting memory feature	●		X	
9	Foot remote control for counting	●		X	
10	Automatic alignment feature	●		X	
11	Interface port	2 x RS-232C, 2 x USB Foot remote. Extra power		RS-232C	
12	Automatic power sleep feature	60 min / 20 min		X	
13	Counting speed	30~40 sec / 40~50 sec		60 sec	
14	Warranty	3 Years (Manual) / 1 Year (Auto)		1 Year
